

Choose New Jersey; We mean business.

Had enough of outrageous tax increases?

We're committed to fiscal responsibility and lower taxes – creating a positive, pro-growth environment that makes New Jersey the right place for your business now and in the future.

New Jersey intends to remain a leader in turning around the national trend of irresponsible tax increases and out-of-control spending. With job creating policies and less regulation, we're proud of the new direction our state is headed.

New Jersey has extraordinary advantages:

- Well-educated, diverse talent pool
- Innovative financing, incentive and assistance programs
- Exceptional quality of life

The time is right for your business to choose New Jersey.

"If you agree that taxes on job creation should be reduced, not increased by as much as 66%, then your business belongs in New Jersey where we are lowering taxes, reducing the size of government and eliminating regulations. We're making a difference as we change the direction of our business climate and I know we can make a difference for your business."

**— Governor of New Jersey
Chris Christie**
